

Integrating Mental Health Practice Skill Set

The Integrating Mental Health Practice Skill Set is designed to equip the community service and health sectors with the knowledge and skills to respond to and support clients experiencing mental health challenges.

State ID AE439

UNITS OF COMPETENCY

CHCCCS003 - Increase the safety of individuals at risk of suicide

This unit describes the skills and knowledge to identify and manage immediate suicide risk and work with the individual to achieve safe outcomes.

HLTWHS006 - Manage personal stressors in the work environment

This unit describes the skills and knowledge required to maintain health and wellbeing by preventing and managing personal stress.

CHCCCS019 - Recognise and respond to crisis situations

This unit describes the skills and knowledge required to recognise situations where people may be in imminent crisis, and then to work collaboratively to minimise any safety concerns and make plans to access required support services

CHCMHS005 - Provide Services to people with co-existing mental health and alcohol and other drug issues

This unit describes the skills and knowledge required to assess capacity to support people with co-existing mental health and alcohol and other drugs issues and to work collaboratively to provide support and facilitate links to other services.
